

Compassion and Care for Those in Need...

Do you know that most uninsured working adults go without dental and medical care so they can finance their family's basic needs? HealthLink Medical Center in Southampton provides a solution . . . free primary medical and dental care and non-narcotic prescription medications for uninsured working adults who earn within 200% of the Federal Poverty Guidelines and live in Bucks and Montgomery Counties.

Founded in 1999, HealthLink is a non-profit organization staffed mostly by volunteer medical, dental and administrative professionals. It receives no government funding and is supported entirely by private donations of funds, services and supplies from the community. Our mission is to address the gap in access to primary medical and dental care for this population.

The People HealthLink Serves

HealthLink patients are individuals and families, ages 19 to 65, who earn too much to be eligible for existing government programs but earn too little to afford the cost of health insurance and associated co-pays. They are the people who fall through the cracks, often working two or more part-time jobs to pay their bills, clothe their children and put food on the table.

Without primary medical and dental care, they develop compromised physical health and dental decay that can become serious illnesses causing lost time from work and threatening their jobs, their income source for their families, and eventually their lives. Simple preventive care can stabilize their health and their economic well being without costly interventions by hospital emergency rooms.

HealthLink Makes a Difference

HealthLink was founded to help provide a healthcare solution for working, uninsured adults.

In 2008 HealthLink:

- served 2,266 patients;
- provided free care for 7,099 medical and dental visits on-site;
- dispensed over 3,000 free non-narcotic prescription medications;
- utilized over 60 volunteers who provided 3,300 volunteer hours on-site

Open House

To learn more about Health-Link, you're invited to attend HealthLink's "Share the Health" Open House. You'll be inspired and encouraged by their message and will leave prepared to tell others about HealthLink's services.

Open House's are held the 2nd Tuesday of every month from 6:00pm to 7:00pm. The program starts promptly at 6:00pm. You will hear from two board members, a volunteer practitioner, and members of the staff. In addition, you'll watch a short video, take a tour of the clinic, and have time to visit with staff and network with some of the guests - all in one hour. To RSVP, please call 267-699-0124.

Opportunities to Help

HealthLink needs volunteer medical and dental professionals because the more volunteers they have, the more patients they can serve. Currently, they need primary care physicians, nurse practitioners and dentists who can volunteer a few hours a month.

You can also help by donating funds, services and supplies, or by supporting HealthLink's 6th Annual Golf Tournament on Friday, October 16th at Spring Mill Country Club. All proceeds from

the tournament help fund HealthLink's services. You'll enjoy lunch, an evening of fine dining, cocktails, awards, and select auction and raffle items. It's a great opportunity to invite friends and prospective clients and network with people you do business with; in a setting that supports the community.

Help make this year's tournament a success: buy a

sponsorship; buy a foursome, be a hole-sponsor; recruit other foursomes; or purchase and donate prize and auction items. For more information or to register go to www.healthlinkmedical.org and click on upcoming events.
