Chances are you have some vision of what your wedding will be like. But how do you choose your wedding style? Whether you want your style to be traditional, romantic, elegant, formal, rustic, or vintage, determining your wedding style will help every aspect of your planning process.

Classic – This style brings timeless elegance and the utmost sophistication to your wedding day. To achieve classic wedding style, you can match centerpieces, fine china, high-end linens, and a carefully chosen wedding color palette. Venues like historic estates, ballrooms, and country clubs are naturally suited for classic wedding style.

Glamorous – This style is a fabulous opportunity to go all out with fancy wedding décor for a glittering celebration, from elegantly

draped linens to oversized floral walls, sequined attire, and crystal chandeliers.

Romantic – Weddings are always romantic events. But romantic style creates an enchanting, fairy-tale inspired feeling. Imagine a beautiful garden venue that has a kissing bench, a fountain, exquisite table settings, and plenty of candles to set the mood.

Vintage – Different ideas come to mind when we think about vintage style: themed weddings inspired by *The Great Gatsby* and the roaring 20s or Old Hollywood glamour. European-inspired venues would be a great fit for this style with luxe details like heirloom furniture and gold candelabras to take you back in time.

Rustic – This style is all about countryside charm. Traditional rustic weddings incorporate lots of pastoral elements, like mason jars filled with lavender, old-fashioned inkwells as candle holders, hay bales, and burlap. Today, couples are adding chic to this wedding style using a mix of modern elements such as lace, twinkling lights, and hanging floral centerpieces and chandeliers.

Bohemian – This wedding style is characterized by flower crowns,

oversized bouquets, mismatched bridesmaid dresses, and unexpected décor pieces. This style is relatively versatile for indoor or outdoor locations, such as an art gallery, industrial space, or barn.

Whimsical – This wedding style is described as playfully quaint and fanciful especially in an appealing and amusing way. Jewels and geode décor trends, thrifted china, and interactive entertainment such as a

photo booth would fit perfectly for the special day.
