

## ST. MARY MEDICAL CENTER Breast Health Awareness Day & Ladies Night Out

**THURSDAY, OCTOBER 25, 2018**

4:30 p.m. – 7:30 p.m.

St. Mary Cancer Center

Join us as we celebrate National Breast Health Awareness Month! Ladies Night Out is promising to be an informative and entertaining event. There will be a market place hosted by local vendors offering jewelry, accessories, party favors and more. There will also be prize drawings, a silent auction, a buffet dinner and brief presentations by St. Mary doctors about the importance of breast health.

There will also be a Medals4Mettle presentation during the event! The Medals4Mettle program donates medals from those that have finished marathons, triathlons and other races to children and adults for the mettle and courage they demonstrate battling cancer, chronic illness, trauma and other life challenges.

As we celebrate this special day, it is our mission to continue servicing those whose lives have been impacted by breast cancer, including patients, families and friends. We recognize all of them as heroes on this journey!

All proceeds from the event go towards the  
Community League Cancer Fund at St. Mary.  
Please call 215.710.5780 for more information.
