

Welcome to SALON 360 N

We Are Serious About Hair

We want to welcome you to our full-service innovative design center, which has been serving our community for many years. Come in, relax, and consult with us about a look that is designed just for you.

Our staff has qualified educators and years of experience to provide you with the newest in cuts and advanced coloring to create your unique look. Our color lines include Goldwell, Wella, Eufora, Redken, Shades, and Aloxxi.

Our color lines include Goldwell, Wella, Eufora, Redken, Shades, and Aloxxi.

Spring and the beginning of each new season are great times to make subtle changes in your style and color to look your best. Salon 360 services include cutting, styling, formal finish, perming, keratin, retexturizing, and extensions. We also offer manicures, waxing, and spa pedicures.

“Love the staff the amazing service and the profession of all the stylist!!! I went from black to blonde and hair is still healthy and thick !!!” - EL

Our newest service is custom hair additions and full hair enhancements for men and women. Consultations are free, and a private area is provided. If you have alopecia—thinning hair—or just want fuller hair for a special occasion, this could be your answer. Custom pieces are created by Sherri Renee.

Salon 360 also has a formal finish specialist and a makeup artist who can take care of your needs for a wedding, prom, or other special occasion.

Mimi Levy and our staff would like to thank our past and current clients for their devoted patronage and are looking forward to taking great care of new clients coming to our salon.
