

WHERE SCIENCE MEETS BEAUTY

Customized Micro-Needling for individual needs.

What is Micro-Needling?

Automatic Micro-Needling (also known as Collagen Induction Therapy or CIT) is a new innovation in skin care for the treatment of fine lines and acne scars as well as improvement of the skin's texture, tone, and color. During this procedure, tiny needles are used to create controlled micro-injuries to the skin in order to produce collagen and elastin. The skin's repair process results in a thicker dermis with softer wrinkles. Micro-Needling creates micro-channels, which allow topical gels, creams, serums and Platelet Rich Plasma to be absorbed more effectively, enhancing their effects in deeper layers of the skin.

What are the benefits?

This revolutionary procedure aids in the reduction of wrinkles, improves texture and tone, for softer, younger-looking skin with fewer signs of aging. New collagen production reduces years of sun damage. The ECLIPSE MICROPEN ELITE™ also has a positive effect on hyper-pigmentation and treats uneven skin tone, acne scars, traumatic scars, and stretch marks.

How is the procedure done?

A sterile needle-tip containing 12 tiny micro-needles is attached to the MICROPEN. A thin layer of topical anesthetic crème is applied to the skin. In a single motion, the pen will be gently pressed against the skin while simultaneously gliding in one direction until the entire treatment area has been covered.

When will the results be visible?

Immediately, the treated skin will reflect a healthy glow. Visible changes to the skin develop over the course of several weeks. Results continue to improve up to six months after the treatment as collagen production continues.

How many treatments are required?

For best results, it is recommended to receive two to three treatments spaced four to six weeks apart. In more-severe cases with deep wrinkles, advanced photo-aging, stretch marks, or acne scars, it is recommended to receive six to eight treatments at six-week intervals.

We are continuously working to exceed your expectations. The variety of services we offer will not only improve the look of your skin but also restore it to a healthier state. Together our team can make a difference for you.

The Services We Offer

Corrective Services

- Micro-Needling
- HydraFacial MD
- Dermaplaning
- Chemical Exfoliation

Medical Services

- BOTOX®
- Dermal Fillers
- Surgical Consultations
- Micro-Needling with PRP, (PRP Facial)
- Hair Restoration with PRP & PRFM

Lash Extensions

- (Synthetic Mink and 100% Siberian Mink Offered)
- Lash Lift

Gift Certificates Available!
