Lace Silhouettes Lingerie has a new and exciting clothing pop-up in their store filled with the brands you love and must-have styles for the upcoming season.

3 Trends We Are Loving from the Spring Collection

Lilly Pulitzer

#1 Flower Power

Have you stopped to smell the roses? If not, make this your season. Flowers have made a whimsical return in the form of larger, bolder, colorful prints. Get ready to bloom with the Lilly Pulitzer collection at Lace Silhouettes. Their array of dresses, skirts, tops and more are perfect ways to check this trend off on your spring wardrobe wish list.

STEVE MADDEN

#2 Denim Skirts

Denim has made a huge splash in fashion for 2024, but the must-have style to add to your closet is definitely the skirt. It will be your most versatile go-to for the season (not to mention comfortable). Dress it up with a sandal or kitten heel and keep it casual with a sneaker or Birkenstocks.

UGG

#3 Platform Footwear

Elevate your spring style (literally) with platform footwear. We love this trend because it offers an eye catching statement and instant height boost without sacrificing comfort. Lace Silhouettes has an extensive collection of platform footwear from UGG including sandals, sneakers and the coveted Tasman.

Stop by your local Lace Silhouettes Lingerie and find your new forever favorites for the season.
