

The Best Spring Trends to Fit Your Lifestyle

My mantra for the spring season this year is “look good, feel good.” I’m ditching the sweats and wearing real clothes. I’m relighting the spark that ignites my love for jeans, pretty blouses, and flowy dresses. I’m remembering that “killer-outfit” feeling. I’m soaking up every moment of the spring warmth, and I’m doing it in style.

Fox & Holly has the best brands and spring must-haves to spruce up your wardrobe and reflect your lifestyle. With so many outdoor, warm-weather activities upon us, I wanted to share with you what I look forward to most, along with my top spring trend picks that you can get at F&H.

1. Outdoor dining

I love a good dinner out on the town, but there is something extra special about getting to dine outside with the fresh air as the sun sets in the sky. F&H has everything you need to get your spring outfits ready for all your favorite restaurants; I like to call it “Al Fresco Attire.”

Here are the trends to shop:

Bold Prints: The cheerful colors that make up some of this season’s best prints are bound to make you feel good while you’re looking

good! Shop the look at Fox & Holly with **Lilly Pulitzer** and **Nic+Zoe**.

Statement Pants: Whether it’s novelty denim, fun prints, or wide-leg pants, make sure you’ve got a few of these in your closet. When your pants do the talking, styling is a breeze by adding a simple tee or blouse. Check out F&H’s **Liverpool** and **Gabby Isabella** collections for statement pants you won’t be able to resist!

2. Lounging by the pool

Nothing beats a lazy day lounging by the pool and working on that sun-kissed tan with a drink in in your

hand (one of my favorite warm-weather activities). Lounge in style this season! Here are my favorite trends for even the laziest of pool days:

Hot Pink: That’s right—the brightest shades of pink are one of the top trending colors this season. F&H is ready to get you feeling pretty in pink with its newest arrivals of **Yeti** and the **Prickly Pear Pink** Collection, with color that is simply delicious. The collection’s drinkware and coolers will keep your wine and favorite boozy beverages cold for all-day-lounging.

Straw Hats: It’s out with the wool and felt hats that dominated the fall season and in with the straw. Whether it’s a classic fedora or a dramatic floppy brim, a straw hat is the perfect pool-side companion to stylishly keep the sun out of your eyes! Be a woman of many hats and shop F&H’s **Koorignal** hat collection.

3. Nature walks

Taking my dog for springtime strolls is a weekly must. This means comfy shoes that don’t sacrifice style. Lucky for you, F&H has your back.

My favorite spring shoe trend:

Espadrille Trim: A simple detail that makes a huge difference. F&H’s shoe bunker has everything to satisfy your espadrille fantasies from **Pikolinos** sandals to **Flexx** sneakers, which are fashionable and functional!
