

Enjoying Autumn With A Healthy Home & Office

You've Got MAIDS of Quakertown & Lehigh Valley takes cleaning to a whole new level

Owner, Elsa O'Brien

Fall is famous for its beautiful colored leaves, fun and family-themed holidays, and the cooler weather that makes us turn to hoodies and hot chocolate to keep warm. This fall, You've Got MAIDS of Quakertown and Lehigh Valley is ready to help families and businesses enjoy the beauty of the season with a special emphasis on health and safety.

A clean living and working space have always been important, not just for the comfort of a sparkling and neat environment but also for the health of everyone in it. That's why You've Got MAIDS of Quakertown and Lehigh Valley has always used products and equipment scientifically designed to support a healthy as well as beautiful home and office. From our industrial-strength HEPA vacuums—expertly engineered to remove nearly all dirt, dust, contaminants, and allergens—down to the dirt-, bacteria-, and germ-eliminating cleaning cloths we use, we've always believed that cleanliness and health go together. Even our cleaning products are nontoxic, and all of them are approved for fighting the virus.

New technology and protocols

As recent events have made us even more aware of the connection between health and safety, we have added to our already-strong repertoire of equipment and techniques for sanitizing your home and office spaces.

One of these new technologies is called the electrostatic sprayer. This innovative tool is highly effective for two reasons. First, it uses a hospital-grade disinfectant that is recognized as the highest classification by the CDC. Second, the sprayer can cover a wide area with just one spray, which makes it perfect to quickly and thoroughly disinfect large areas at a time.

We use the electrostatic sprayer to keep our own offices germ-free and provide a safe space for our employees, and we use it to benefit our clients as well. Some of the places where the

electrostatic sprayer is most effective are in businesses that see a lot of customer traffic or that have high-touch areas, as well as in private homes where someone has been sick or where an especially deep clean is needed.

We've also upped our own protocols to safeguard the health of our employees as we work to help you protect your families, colleagues, and customers. Some of the steps we've taken include incorporating staggered shifts for our Maids; implementing daily health checks; performing nightly sanitizing of work clothes, vehicles, and equipment; and conducting check-ins with our customers to make sure they are well before we send out a cleaning crew.

The same trusted service

All of these new innovations and protocols are in addition to the same quality of service and expertise we've always brought to our customers. This includes a thorough, professional clean customized to your needs and budget, delivered by a dedicated cleaning crew. Our Maids arrive at your home or office in uniform, in a company vehicle, with all of the tools and supplies they need to complete your clean. All of our Maids

undergo the same professional training so you are sure to receive consistent, high-quality service, and all are fully insured and bonded.

You've Got MAIDS of Quakertown and Lehigh Valley is a family-owned, family-run business with deep roots in the community. We've been providing quality residential and commercial cleans to local families and businesses for nearly a decade, and we treat each home and office we enter as if it were our own.

As the leaves start to turn color and the weather starts to change, one thing remains the same: our commitment to your health, safety, and happiness. Give You've Got MAIDS of Quakertown and Lehigh Valley a call today at 215-529-7837 and tell us how we can help you make your home or office the clean, welcoming, safe space you want it to be for your families, friends, and customers!
