

Meet Nancy & Tina of Uncluttered_Spaces

Our Story

We met in seventh grade English class and became instant friends and continued our friendship through high school and college. After college, we went our separate ways and became working professionals, fell in love, moved away, and married.

One day years later, we ran into each other in our hometown at a local store and discovered we were both pregnant with our first child and living locally again. From that day forward, a special sisterhood bond was forever cemented. We grew and raised our families together. We shared our everyday journey through lots of laughter and sometimes tears of being full-time mothers and supportive housewives to our entrepreneur husbands.

When our children became school-age, we were looking for flexible jobs to do together and still be available for our families, which were always our top priority. We started cleaning houses because it gave us flexibility and a little cash in our pockets. During this process, clients started asking us to do more than clean, and, honestly, we knew we wanted to provide more than just a cleaning service.

At that time, we were reorganizing and restyling homes and spaces. We were providing solutions that were making a real impact on the quality of home life for families. We soon realized this was our real passion and that a lifestyle service was our true calling.

On New Year's Day 2012, we made a resolution together. We were going to start our own company and do something meaningful and fulfilling for ourselves and others. We listed all the things we excelled at, had experience in, and enjoyed doing. Our talents, passions, hard work ethic, strong teamwork, and trust in each other created Uncluttered Spaces LLC, a professional organizing service that offers compassion, kindness, creative problem-solving, and positive life-changing results for clients.

2020 was a year all of us will never forget. It challenged us in ways we never could have imagined. We regrouped, changed priorities, and made a pact to work smarter, not harder; to give back to our community; to take risks and learn as much as we could from our past mistakes; and to educate ourselves in the present.

You see, we found the silver lining in all of what we collectively endured. It was a redo, and it couldn't have happened without all the lows we survived together.

2022 is our 10-year anniversary, and we have so much to celebrate! We rebranded, let go of dead weight, became more accountable, and educated ourselves. As a result, our business grew. We now provide services that are changing people's lives for the better, and we know we are excellent at what we do. We move mountains, and, as a team, we know nothing is impossible.

Today, our children are thriving, independent young adults, and Uncluttered Spaces has grown into a full-service organizing company. No job is too small or too large. We handle move-management projects, estate cleanouts, home reorganization, space restyling, luxury lifestyle concierge services, business relocation, staff workspace reorganizing, staff workspace restyling, warehouse Inventory, and collection archiving. We really do "organize you into happiness!"
